

THE UNSTUCK PLAYBOOK

4 Frameworks to Start Winning in
Wealth, Mindset, Health & AI — Today

01 THE FIRST ASSET FRAMEWORK

Wealth

02 THE EXECUTION UNLOCK

Mindset

03 THE MINIMUM EFFECTIVE DOSE

Health

04 THE 10-MINUTE AI LEVERAGE STACK

AI & Automation

Most people have everything they need to win.
They just need the right frameworks.

THE FIRST ASSET FRAMEWORK

THE FILTER

Every income-producing asset must pass all 3 questions before you pursue it.

QUESTION 1

Does it produce income without requiring your daily presence?

If you stop working, does it keep paying? If no — it's a job, not an asset.

QUESTION 2

Does it appreciate in value over time?

Real estate, equity, intellectual property. Not depreciating liabilities.

QUESTION 3

Can it be improved or scaled with systems or AI?

Assets that can be systematized compound faster than those that can't.

THE RULE

All 3 yes — pursue it. Any no — skip it or fix it first.

This filter alone eliminates 80% of distractions disguised as opportunities.

DO THIS TODAY:

Pick one asset you're considering right now. Run it through all 3 questions. Write down your answers. If it passes — take one step toward it today.

THE EXECUTION UNLOCK

THE PROBLEM

You don't have a strategy problem. You have a follow-through problem.

You know what to do. You're not doing it. These 3 questions fix that.

QUESTION 1

What is the smallest possible version of this I can do in the next 10 minutes?

Shrink the task until resistance disappears. Then start that version.

QUESTION 2

What am I actually afraid of — failure or success?

Name the real fear. Unnamed fears run your decisions. Named ones lose their power.

QUESTION 3

What does staying stuck cost me in 12 months if nothing changes?

Make the cost of inaction real and specific. Comfort is expensive long-term.

THE RULE

Answer all 3. Then move. No more thinking.

The answers create motion. Motion creates momentum. Momentum creates results.

DO THIS TODAY:

Write down one thing you've been avoiding. Answer all 3 questions about it right now. Then do the 10-minute version — immediately.

THE MINIMUM EFFECTIVE DOSE

THE TRUTH

Motivation is unreliable. Systems are not. This is your non-negotiable daily system.

RULE 1

1 non-negotiable movement per day — minimum 10 minutes, no exceptions.

Walk, lift, stretch — anything counts. The non-negotiable is the point. Never break it.

RULE 2

1 meal decision made in advance.

Decide what you'll eat before you're hungry. Willpower is finite — don't waste it on food.

RULE 3

1 daily check-in — did I show up for myself today? Yes or no.

Track the streak. The goal is never missing twice. One miss is human. Two is a pattern.

THE RULE

Consistency beats optimization every time.

Perfect nutrition you quit beats imperfect nutrition you maintain. Show up first. Optimize later.

DO THIS TODAY:

Set one non-negotiable: what 10 minutes of movement will you do every single day, no matter what? Write it down. Do it today. Start the streak.

THE 10-MINUTE AI LEVERAGE STACK

THE SHIFT

While you're sleeping on AI, someone is using it to do in 10 minutes what takes you 10 hours.

You don't need to be technical. You need 3 tools and the decision to start.

TOOL 1 — CLAUDE

Thinking, writing, strategy, research, content — your AI brain.

Use it for: drafting content, researching ideas, building systems, solving problems, planning strategy.

TOOL 2 — ZAPIER

Connecting your tools and automating repetitive tasks without code.

Use it for: moving data between apps, triggering actions automatically, eliminating manual steps.

TOOL 3 — BUFFER / TYPEFULLY

Scheduling content automatically so you never have to post manually.

Use it for: queuing a week of posts in one session, posting at optimal times, tracking what performs.

THE RULE

Master these 3 before adding anything else.

One tool used well beats ten tools used poorly. Start here. Build from here.

DO THIS TODAY:

Open Claude right now. Type: 'Help me do [one thing you've been procrastinating on].' See what happens. That's your first AI leverage moment.

You have everything you need to win.

Now you have the frameworks.

Execute.
